MANAGEMENT OF REGULATED WASTES GENERATED BY DENTAL, VETERINARY & MEDICAL PRACTICES
CONTAINMENT & LABELING

	BIOHAZARDOUS WASTE	SHARPS WASTE READY FOR DISPOSAL	PHARMACEUTICAL WASTE	PATHOLOGY WASTE	CHEMOTHERAPY WASTE	
					Non-pourable	Pourable
CONTAINER TYPES	Red biohazard bag inside a clean, leak resistant, rigid container in good repair.	Rigid, puncture-resistant container that, when sealed, is leak resistant and cannot be opened without great difficulty.	Clean, leak resistant, rigid container in good repair with tight fitting cover.	Clean, leak resistant, rigid container in good repair with tight fitting cover.	Sharps Container or red biohazard bags	Hazardous waste container
WASTE and CONTAINER MANAGEMENT	Tie bags to prevent spillage	May place sharps containers ready for disposal in biohazard bags or containers with biohazard bags.	Only NON-RCRA* pharmaceutical waste can be managed as medical waste. RCRA** pharmaceutical waste must be managed as hazardous waste. *California-only hazardous waste **Federal hazardous waste (due to federal listing or waste characteristics).	Recognizable human anatomical parts must be managed as pathology waste.	Only trace chemotherapy (<3% by weight) can be managed as medical waste	Bulk chemo therapy (≥3% by weight) must be managed as a hazardous waste
SEGREGATION	Segregate from other wastes and label as described below					
CONTAINER LABELING	Generator's label & either: "Biohazardous Waste" or International Biohazard symbol and word "BIOHAZARD"	Generator's label & on lids and sides of container either: "Sharps Waste" or International Biohazard symbol and word "BIOHAZARD"	Generator's label & "Incineration Only" on lids and sides of container:	Generator's label & either: "Pathology Waste" or "PATH" on lids and sides of container.	Generator's label & either: "Chemotherapy Waste" or "Chemo" on lids and sides of container.	Hazardous waste label with all required information.
CONSOLIDATION	All these wastes may be consolidated in one common container if treated by extremely high heat technology. Common container must be labeled with the biohazard symbol and the words "HIGH HEAT ONLY"					

STORAGE TIME LIMITS

Amount of waste stored at room temperature unless otherwise specified	BIOHAZARDOUS WASTE	SHARPS WASTE READY FOR DISPOSAL	PHARMACEUTICAL WASTE READY FOR DISPOSAL	PATHOLOGY WASTE	NON-POURABLE CHEMOTHERAPY WASTE
<20 lbs/month	30 days	30 days	NA	30 days	Manage as sharps or biohazardous waste according to the type of container used for storage.
>20 lbs/month	7 days	30 days	NA	7 days	
>200 lbs/month	7 days	30 days	NA	7 days	
Stored below 0° C (32° F)	90 days	NA	NA	90 days	
Any amount	NA	NA	90 days when ready for disposal, or	NA	NA
of Pharmaceutical Waste	NA	NA	at least once per year	NA	NA

RECORD KEEPING REQUIREMENTS FOR MEDICAL WASTE GENERATORS

Total Medical waste (all categories) generated is ≥200 lbs /month:	3 years
Limited quantity hauler exemption (LQHE) medical waste tracking documents and onsite treatment records:	3 years
Total Medical waste (all categories) generated is less than 200 lbs /month with no LQHE and with no onsite treatment:	2 years
